SUMMARY

Experienced in full-stack development, AI engineering, data pipelines, and enterprise AI systems.

EDUCATION

Case Western Reserve Univ

B.S. Data Science, Finance minor | GPA: 3.5/4.0

– **Honors:** Dean's List

Aug 2023 – Apr 2027

Cleveland, OH

University College Dublin

Study Abroad Program | Focus: Data Science, Fintech

Jan 2026 – May 2026

Dublin, IE

RELEVANT EXPERIENCE

Technology Analyst Intern

PNC Financial Services

- Built a full-stack application using Jira, Bitbucket, and Azure AI Foundry to automate Change Request (CR) reports, reducing report preparation time by over **90%** (from 1+ hour to under 5 minutes).
- Built an autonomous data pipeline that archives Tableau dashboards to Bitbucket before expiration, reducing archival time by **90%** (from 20 minutes to 2 minutes) while ensuring version-controlled backups.
- Developed AI token analytics to measure Return on Intelligence (ROInt).

June 2026 – Present

Pittsburgh, PA

AI Governance Intern

Sherwin-Williams

- Built a GenAI cost-estimation tool that cut model approval time by 50%.
- Developed Power BI dashboards reducing unnecessary Copilot licenses by 15%.
- Implemented an Azure AI tagging framework for cloud cost attribution.
- Coauthored AI literacy guidelines adopted by 64,000+ employees.

May 2025 – Aug 2025

Cleveland, OH

TECHNICAL PROJECTS

DeCypher | *Next.js, TypeScript, Tailwind CSS, Web3*

- Built a Web3 tool decoding smart contract calldata into human-readable transactions.
- Integrated the Etherscan API for accurate transaction decoding.
- Implemented ERC-20 parsing and flagged unlimited token approvals.

Spring 2026

U.S. Voting Patterns Analysis | *Python, Spark*

- Analyzed 47,000+ county-year observations using ACS and U.S. presidential election data.
- Built Spark MapReduce pipelines across 500+ variables and 3,143 counties.
- Benchmarked Spark against single-node processing, achieving up to $3.5\times$ speedup.

Spring 2026

ADDITIONAL EXPERIENCE

• Board Member, Conduct Review Board

Reviewed academic and conduct cases with faculty to uphold university standards.

Nov 2024 – Present

• Executive Member, CWRU Quants

Developed a real-time trading strategy simulation engine for corporate demonstrations.

Nov 2024 – Present

SKILLS & CERTIFICATIONS

Programming:

Java, Python, SQL, R, TypeScript, JavaScript, HTML, CSS

AI & Data:

Azure AI Foundry, Apache Spark, Power BI, Streamlit, Logistic Regression, KNN, SVM

Developer Tools:

Git, GitHub, Next.js, Tailwind CSS, Jira, Confluence, Bitbucket, Linux, Node.js, Vercel

Certification:

Microsoft Harnessing Data Insights (Power BI)
